<u>J. Michael Neary</u> J. Michael Neary	<u>Feb 10, 2003</u> Date

Inventor: Christopher W. Gabrys )  
Serial No.: 09/977,678 ) Group Art Unit: 2834  
Filed: Oct. 15, 2001 ) Examiner: Dang D. Le  
Title: **"Improved Inductor Alternator Flywheel System"**

February 10, 2003

**Election**

Commissioner for Patents  
Washington, DC 20231

Sir;  
Responsive to the Restriction Requirement dated January 9, 2003, Applicant elects with traverse, the claims of Group I for prosecution in this Application. Applicant's grounds for traversing the requirement for restriction are stated in the Remarks section below.

**Remarks**

Applicant respectfully requests reconsideration of this application as amended herein.

The Restriction Requirement asserts that Groups I-IV are related as subcombinations disclosed as usable together in a single combination, but are distinct from each other because they are "separately usable". The Examiner defines the "separate utility as follows:

Group I (claims 1-18) drawn to "the apparatus of the flywheel system with mechanical bearings". Separate utility: used to support a rotor rotation.
